ISSA IBRAHIM SAFI

Data Entry & Operations Support Specialist | Aspiring Junior Data Analyst
Gaza City, Palestine • +970 593 421 514 • cfhddgfsw@gmail.com

PROFESSIONAL SUMMARY

Data Entry & Operations Support Specialist with a growing focus on data analysis. Hands-on experience in spreadsheets, data entry, and daily operations at Safi Pharmacy, which I helped found. IBM-certified in Excel for Data Analysis and currently studying SQL and Python. Built a pharmacy inventory and sales analysis project on GitHub. Strong English communication and analytical thinking.

CORE SKILLS

Data & Tools: Microsoft Excel • Spreadsheet management • Data entry (50+ WPM English typing) • Data organization • Basic data analysis • SQL & Python (learning)

Professional: English communication (excellent) • Analytical thinking • Research • Presentations • Problem solving • Adaptability

PROFESSIONAL EXPERIENCE

Founder & Operations / Procurement Lead — Safi Pharmacy Gaza City, Palestine

- Handle medicine purchasing and procurement, and take part in daily pharmacy operations.
- Perform data entry and use spreadsheets to organize and manage pharmacy data.

Independent Financial Market Analyst 2024 – Present

- Analyze financial markets and cryptocurrencies using technical and fundamental analysis and price-action methods.
- Interpret price data to identify patterns; invited to teach beginners by an online trading community.

English Instructor (Peer Teaching) Gaza City, Palestine

- Taught English classes as a stand-in teacher and led English discussions with native speakers.

PROJECTS

Pharmacy Inventory & Sales Analysis github.com/issa-08/pharmacy-inventory-sales-analysis

- Analyzed pharmacy sales and inventory data using Excel and covering $22K+ in revenue.
- Built a stockout risk tracking analysis to flag products at risk of running out, supporting purchasing and restocking decisions.
- Applied hands-on pharmacy procurement experience to keep the analysis practical and business-focused.
